

KECKTECH · PRESENCE OS

Daily Operator Guide

MSP + NetOps Quality + ME Manager Presence — one loop

Operator guide · August 12, 2026
Daily workflow only — Approve, never auto-publish.

Contents (from markdown SSOT)

- DAILY_OPERATOR_LOOP.md

Living checklist. Merges content Presence (ME Manager), MSP (Dashboard/docs/DAILY-TASKS.md), and NetOps Journey 1 (Future Ideas/netops-tool/docs/APPLICATIONS_SUITE.md).

Do not treat any single older PDF/checklist as complete alone.

Canonical Presence hub: <https://me.willworkforlunch.com>

siteKeys: wwfl · kecktech · jacob-roman · unclejon (never uncle-jons)

Chronic-pain protocol: never skip P1 tickets, lead replies, or fleet fires; content can shrink.

Every business day (60–90 min fixed ops, then deep work)

Block 0 — Briefing (~2 min)

- 1 Read n8n morning briefing email (Zammad / ERP / TRMM summary) — <https://n8n.kecktech.net>

Block A — MSP ops trio (~10–15 min)

- 1 <https://dash.kecktech.net> — Today / red tiles
- 2 <https://tickets.kecktech.net> — P1/P2 first, then open queue
- 3 <https://rmm.kecktech.net> — critical alerts / offline agents → ticket if needed
- 4 <https://erp.kecktech.net> — overdue invoices / CRM follow-ups (stub leads OK at zero clients)
- 5 OWA support@kecktech.net + brand aliases — log leads in ERPNext

Block B — NetOps / Cleaner Quality (REQUIRED, ~10–15 min)

Live host: <https://net-ops.kecktech.net> (not netops without hyphen). Authelia; break-glass /login.

- 1 /dashboard — “What needs you”: blocked apps, open issues, Cleaner review, agents down
- 2 /dashboard/issues — alerts + security tasks + degraded agents/containers
- 3 /dashboard/cleaner?tab=inbox (prefer Apps → Quality) — Accept/Dismiss until pending_high = 0 (HIGH/CRITICAL only) or park with note
- 4 /dashboard/fleet/agents if pulse shows agents down
- 5 /dashboard/security only if chips hot (else weekly)

Prefer NetOps Quality over standalone <https://cleaner.kecktech.net> (repo Quality tool — not cleaning services).

Block C — Capture & approve (ME Manager, ~15–25 min)

- 1 <https://me.willworkforlunch.com> → Pipeline/Inbox
- 2 Process **every** awaiting item (all personas): edit → Approve / Hold / Reject
- 3 Destinations: kecktech (client proof) · wwfl (build-in-public) · jacob-roman (books only — never “both”) · unclejon (games/devlog)
- 4 Calendar — today’s scheduled posts

Block D — Progress intake (~10–20 min)

- 1 Coding today → Ship/hook with correct targets.site
- 2 LiT / bible session → jacob-roman package or explicit skip (LIT-SHIP.md)
- 3 Demo change → Ship to kecktech and/or wwfl
- 4 <https://forge.kecktech.net> Studio queue — approve/send-back (Jon-only)

5 <https://gpu.kecktech.net> — only if jobs stuck

Block E — Property + demo pulse

Surface · Daily pulse

Kecktech · Inbox + /demos accuracy + lead mail

WWFL · Inbox + Projects feel current

Jacob · Inbox/LiT + contact; never tech “both”

Uncle Jon’s · Forge + game commits; Games + Discord when live

NetOps/Cleaner · Issues not on fire; pending_high cleared or parked

Portfolio demos · Spot-check any app you touched; Capture if UI changed

Evening wrap (5–10 min)

- 1 Inbox + NetOps fire + P1 tickets cleared or explicitly parked
 - 1 Unbilled hours / ERP lead statuses if any client work
 - 1 Tomorrow’s top 3 across: client / fleet / presence / demo / game / book
-

Weekly (90–120 min)

- 1 Portfolio Sync — POST /api/portfolio { "action": "sync" } — all demos + three games stage / displaySites
 - 2 NetOps: AppSec for critical apps; Cleaner coverage drain; inventory hygiene vs RMM + Vault names
 - 3 Sovereign Hub glance (export-fed — not a NetOps substitute)
 - 4 Sources & Outputs + Postiz health (LAN 10.20.0.205:4007)
 - 5 One post each stream or explicit skip: Kecktech, WWFL, Jacob, Uncle Jon
 - 6 Umami (<https://umami.kecktech.net> / stats) + social → pivot note
 - 7 Traefik / Portainer if flaky; n8n failed runs; Mailcow monthly if due
 - 8 Voice-clone upload if new audio; MSP outreach (5 CRM enrichments while zero clients)
 - 9 Forge backlog empty or prioritized
 - 10 Portal Stripe readiness check while zero clients (no fake invoices)
